

RUNFA HU

(+86) 18395939796 ◊ rova.hu@sjtu.edu.cn

EDUCATION

Shanghai Jiao Tong University, Shanghai, China

Sep 2022 - Present

B.A. in Economics (expected 2027); B.S. in Mathematics (Second Major, expected 2027)

GPA: 4.10/4.30 | Score: 94.25/100 | Rank: 1/39

Transferred from Industrial Engineering in 2023

GPA (Industrial Engineering): 3.88/4.30 | Score: 89.99/100 | Rank: 1/60

Selected Economics Coursework: Advanced Microeconomics I (PhD), Advanced Macroeconomics I (PhD), Game Theory, Optimization Methods in Economics, Econometrics

Selected Mathematics Coursework: Real Analysis, Complex Analysis, Basic Topology, Calculus I&II, Linear Algebra I&II, Probability Theory, ODE, Scientific Calculation, Mathematical Programming, Elementary Number Theory, Abstract Algebra (in progress), Representation Theory of Groups and Algebras (in progress), Functional Analysis (in progress)

RESEARCH INTERESTS

Combinatorial Optimization, Computational Economics, Decision Theory, Revealed Preference Theory

RESEARCH EXPERIENCE

Research Assistant: Revealed Preference Theory & Afriat's Theorem

Aug 2025 - Present

Shanghai Jiao Tong University | Advisor: Taotao He (Department of Management Science)

Shanghai, China

- Conducted an in-depth review of Revealed Preference Theory, comparing various mathematical approaches and proof methodologies for Afriat's Theorem;
- Recovered Afriat's original proof and formulated a simplified proof of Afriat's Theorem utilizing graph-theoretic concepts (analyzing preference relations as directed graphs with vertex contraction);
- Currently studying R.T. Rockafellar's Convex Analysis, with a specific focus on "Cyclic Monotonicity" and its theoretical applications in optimization and preference representation.

Research Assistant: The Spillover Effect of Short-Selling Event and U.S. SEC Comment Letters on Analyst Behavior

Jun 2024 - Jul 2025

Shanghai Jiao Tong University | Advisor: Hui Ding (Department of Accounting)

Shanghai, China

- Built and maintained financial datasets using CRSP, Compustat, and I/B/E/S via the WRDS;
- Performed data processing and variable construction in SAS and WRDS SAS Studio.

AWARDS AND ACTIVITIES

National Scholarship

2025

SEIEE Alumni Scholarship

2024

Microeconomics Theory Reading Group

2025

SJTU Summer mini course of Microeconomics in Decision Theory, by Prof. Yusufcan Masatlioglu

2025

Intermediate Microeconomics: Problem Solving Session - Lecturer

2025

SKILLS

Languages: English (TOEFL:113, R30 L29 S26 W28), Chinese (Native)

Programming & Software Skills: Python, C++, MATLAB, $\text{\LaTeX}$, SAS, Stata

Hobbies: Art Exhibition(Modern Art), Table Tennis, Tennis
